

# International Conference on The Role of Non-Banking Financial Markets in Sustaining Economic Growth

co-organized by

the Romanian Financial Supervisory Authority (ASF) and the General Association of Romanian Economists (AGER)

in partnership with

Bucharest University of Economic Studies (ASE)

May 28, 2015

Bucharest, Romania

The "International Conference on the Role of Non-Banking Financial Markets in Sustaining Economic Growth" will bring together the policy-making community, academics, research students and industry practitioners from Romania and abroad to exchange views on topics related to the conference theme. The conference organizers welcome papers and panel presentations that discuss the contribution of financial sector development, in particular the development of non-banking financial markets and institutions, to economic growth in advanced and emerging economies, within the new international regulatory framework.
