CONTENTS

INTRODUCTION

CHAPTER 1: FINANCIAL DECISIONS - ANALYSIS OF THE CONCEPTUAL FRAMEWORK

1.1 SAVING BEHAVIOR

1.2 OVERSPENDING

1.3 FINANCIAL AWARENESS

1.4 CHAPTER SUMMARY

CHAPTER 2: THE EVOLUTION OF THE CONSUMER SOCIETY IN EASTERN EUROPE

2.1 THE SOCIO-ECONOMIC CONTEXT IN EASTERN EUROPEAN COUNTRIES

2.2 CULTURAL PARTICULARITIES IN ROMANIA AND THE REPUBLIC OF MOLDOVA – HOFSTEDE'S MODEL

2.3 CHAPTER SUMMARY

CHAPTER 3: FINANCIAL WELL-BEING IN ROMANIA - EMPIRICAL RESEARCH

3.1 THE ROLE OF FINANCIAL LITERACY FOR FINANCIAL WELL-BEING – BETWEEN MYTH AND REALITY

3.2 FINANCIAL EDUCATION IN ROMANIA: EXPECTATIONS AND RESULTS

3.2.1 Data and methodology

3.2.2 Analysis results

3.3 CHAPTER SUMMARY

CHAPTER 4: STUDYING FINANCIAL DECISIONS THROUGH THE THEORY OF PLANNED BEHAVIOR - A MICROECONOMIC APPROACH

4.1 THEORY OF PLANNED BEHAVIOR

4.1.1 Attitudes and behavioral beliefs

4.1.2 Subjective norms and normative beliefs

4.1.3 Perceived behavioral control and beliefs about control

4.1.4 Theory of Planned Behavior and Financial Behaviors

4.2 HYPOTHESES AND MEASUREMENT TOOLS

4.2.1 Materialism

4.2.2 Social norms

4.2.3 The locus of control

4.3 APPLIED STATISTICAL METHOD

4.4 DATA COLLECTION AND PROFILE OF RESPONDENTS

4.5 RESEARCH RESULTS

4.5.1 Evaluation of measuring instruments

4.5.2 Results of PLS-PM analysis

4.6 CHAPTER SUMMARY

CHAPTER 5: THE IMPACT OF PSYCHOLOGICAL FACTORS ON FINANCIAL DECISIONS – PAIN OF PAYING AND ADAPTATION STRATEGIES

5.1 THE PAIN OF PAYING- METAPHOR OR REAL EXPERIENCE?

5.2 ADAPTATION STRATEGIES – BETWEEN DENIAL AND ACCEPTANCE, EMOTIONS AND ACTION

5.3 HYPOTHESES AND MEASUREMENT TOOLS

5.4 PLS-PM ANALYSIS RESULTS: THE EXTENDED TPB MODEL

5.4.1 Comparison between Romania and the Republic of Moldova

5.4.2 Effect sizes for coefficient loadings

5.4.3 Nonlinear and linear relationships between latent variables

5.5 CHAPTER SUMMARY

CHAPTER 6: NUDGING STRATEGIES AND OTHER TOOLS FOR CHANGING FINANCIAL BEHAVIOR

6.1 TYPES OF INTERVENTIONS

6.2 GENERIC BEHAVIOR CHANGE TOOLS

6.2.1 The INSPIRE framework

6.2.2 EAST framework

6.2.3 The PoP framework

6.3 EXAMPLES OF GOOD PRACTICES

6.4 CHAPTER SUMMARY

CONCLUSIONS AND RECOMMENDATIONS

Theoretical contributions and practical implications

Limitations and future research directions

BIBLIOGRAPHICAL REFERENCES

SUMMARY

This PhD thesis aims to explain financial behaviors through the lens of social, psychological and cultural influences. We analyzed three financial behaviors, namely the tendency to save, the tendency to overspend, and financial awareness. The theoretical model on which the analysis is based is given by the Theory of Planned Behavior, which considers attitude, subjective norms and perceived behavioral control as influencing factors of any behavior. In addition to these variables, given previous research, we added two other variables of interest to the model: pain of paying and coping strategies. The data were collected with a questionnaire from two countries: Romania and the Republic of Moldova in order to carry out a comparative study. The statistical method used for data analysis was the method of partial least squares (PLS-PM), using WarpPLS 7.0 software for this purpose. The results of the study showed that socio-psychological factors and cultural differences leave their mark on financial behaviors. Among the variables of the Theory of Planned Behavior, attitude statistically significantly influenced all three analyzed behaviors; subjective norms influenced financial awareness, and perceived behavioral control influenced propensity to save and financial awareness. Among the variables added to the model, we obtained that both the pain of paying and the coping strategies statistically significantly influenced the analyzed behaviors. These results contribute to a better understanding of financial behaviors and to the adjustment of measures taken to improve them.
